There is something soothing and mesmerizing about geometric designs. Each of these 28 designs was hand-drawn (no computer generation!) and celebrates the aesthetic beauty of lines, shapes, and symmetry. Alongside each picture you will find a famous quote about relaxing, to ponder as you color in each design with your own individual colors. My aim in creating this collection was to create beautiful drawings that are neither too complex nor too simplistic, with each one embracing a different feeling, or theme. Relax, enjoy and add some Happy Color to your life!
