Business Analysis for Practitioners: A Practice Guide Project Management Institute

Business Analysis for Practitioners: A Practice Guide provides practical resources to tackle the project-related issues associated with requirements and business analysis—and addresses a critical need in the industry for more guidance in this area.

The practice guide begins by describing the work of business analysis. It identifies the tasks that are performed, in addition to the essential knowledge and skills needed to effectively perform business analysis on programs and projects.

It breaks these tasks into five domains: needs assessment; planning; analysis; traceability and monitoring; and evaluation. Within each of these domains, there are a series of supporting tasks which are defined and explored.
