Thomas Munck

Seventeenth-Century Europe: State, Conflict and Social Order in Europe 1598-1700 (Palgrave History of Europe) Thomas Munck

This thematically organised text provides a compelling introduction and guide to the key problems and issues of this highly controversial century. Offering a genuinely comparative history, Thomas Munck adeptly balances Eastern and Southern Europe, Scandinavia, and the Ottoman Empire against the better-known history of France, the British Isles and Spain.

Seventeenth-Century Europe

- gives full prominence to the political context of the period, arguing that the Thirty Years War is vital to understanding the social and political developments of the early modern period
- provides detailed coverage of the debates surrounding the 'general crisis', absolutism and the growth of the state, and the implications these had for townspeople, the peasantry and the poor
- examines changes in economic orientation within Europe, as well as continuity and change in mental and cultural traditions at different social levels.

Now fully revised, this second edition of a well-established and approachable synthesis features important new material on the Ottomans, Christian-Moslem contacts and on the role of women. The text has also been thoroughly updated to take account of recent research.
