## Minnesota's Angling Past (Images of America) Thomas A. Uehling

The importance of fishing in Minnesota goes back thousands of years: first as a means of critical subsistence and then, in the last 200 years, as a major economic influence. In the 1800s, anglers seeking pristine lakes with ample fish traveled to Minnesota on the railroads. The widespread use of automobiles and an improving road system rapidly increased the state's accessibility in the 1900s, and resorts sprouted everywhere. During the early tourist boom, the state was also home to countless boat builders, tackle manufacturers, and other fishing-related businesses. *Images of America: Minnesota's Angling Past* provides a view of the time when boats were made from wood and propelled by rowing; when great fishing spots were found through experience rather than electronics; and, for some, a suit or dress was proper attire for a day of fishing. This book includes rare images from across the state that capture memorable days of angling, such as the 1955 Leech Lake Muskie Rampage.
