Conjunto de artigos, frutos de investigação de antropólogos, voltados para a área da saúde. Primeiro trabalho do gênero no País, que aprofunda questões de saúde mental, visão cosmológica de grupos específicos, relações entre o corpo, a mente e a cultura e as questões de cura vistas sob o prisma de várias religiões populares. A obra faz um contraponto com o esforço dos estudiosos da saúde de se aproximarem das abordagens antropológicas, de forma que se torna instrumento para o entendimento do fenômeno saúde/doença e seus complexos processos de articulação.
