## The God Effect: Quantum Entanglement, Science's Strangest Phenomenon Brian Clegg

The phenomenon that Einstein thought too spooky and strange to be true

*What is entanglement?* It's a connection between quantum particles, the building blocks of the universe. Once two particles are entangled, a change to one of them is reflected---*instantly*---in the other, be they in the same lab or light-years apart. So counterintuitive is this phenomenon and its implications that Einstein himself called it "spooky" and thought that it would lead to the downfall of quantum theory. Yet scientists have since discovered that quantum entanglement, the "God Effect," was one of Einstein's few---and perhaps one of his greatest---mistakes.

*What does it mean?* The possibilities offered by a fuller understanding of the nature of entanglement read like something out of science fiction: communications devices that could span the stars, codes that cannot be broken, computers that dwarf today's machines in speed and power, teleportation, and more.

In *The God Effect*, veteran science writer Brian Clegg has written an exceptionally readable and fascinating (and equation-free) account of entanglement, its history, and its application. Fans of Brian Greene and Amir Aczel and those interested in the marvelous possibilities coming down the quantum road will find much to marvel, illuminate, and delight.

### **From reader reviews:**

#### **Ruth Davis:**

What do you consider book? It is just for students because they are still students or the idea for all people in the world, the actual best subject for that? Only you can be answered for that problem above. Every person has distinct personality and hobby per other. Don't to be compelled someone or something that they don't desire do that. You must know how great and also important the book The God Effect: Quantum Entanglement, Science's Strangest Phenomenon. All type of book could you see on many solutions. You can look for the internet options or other social media.

#### **Michael Rodriguez:**

Reading a guide tends to be new life style within this era globalization. With examining you can get a lot of information that will give you benefit in your life. Along with book everyone in this world can easily share their idea. Ebooks can also inspire a lot of people. A lot of author can inspire their very own reader with their story or perhaps their experience. Not only the storyplot that share in the publications. But also they write about the data about something that you need instance. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors on this planet always try to improve their expertise in writing, they also doing some research before they write with their book. One of them is this The God Effect: Quantum Entanglement, Science's Strangest Phenomenon.

#### **Belinda Bedard:**

The actual book The God Effect: Quantum Entanglement, Science's Strangest Phenomenon has a lot of information on it. So when you make sure to read this book you can get a lot of advantage. The book was written by the very famous author. The author makes some research prior to write this book. This kind of book very easy to read you can get the point easily after looking over this book.

#### **Janice Evans:**

This The God Effect: Quantum Entanglement, Science's Strangest Phenomenon is completely new way for you who has interest to look for some information mainly because it relief your hunger of knowledge. Getting deeper you onto it getting knowledge more you know otherwise you who still having tiny amount of digest in reading this The God Effect: Quantum Entanglement, Science's Strangest Phenomenon can be the light food in your case because the information inside that book is easy to get through anyone. These books produce itself in the form and that is reachable by anyone, that's why I mean in the e-book application form. People who think that in reserve form make them feel drowsy even dizzy this book is the answer. So there isn't any in reading a e-book especially this one. You can find what you are looking for. It should be here for you actually. So , don't miss the idea! Just read this e-book type for your better life and also knowledge.
