Perl One-Liners: 130 Programs That Get Things Done Peteris Krumins

Part of the fun of programming in Perl lies in tackling tedious tasks with short, efficient, and reusable code. Often, the perfect tool is the one-liner, a small but powerful program that fits in one line of code and does one thing really well.

In *Perl One-Liners*, author and impatient hacker Peteris Krumins takes you through more than 100 compelling one-liners that do all sorts of handy things, such as manipulate line spacing, tally column values in a table, and get a list of users on a system. This cookbook of useful, customizable, and fun scripts will even help hone your Perl coding skills, as Krumins dissects the code to give you a deeper understanding of the language.

You'll find one-liners that:

- Encode, decode, and convert strings
- Generate random passwords
- Calculate sums, factorials, and the mathematical constants π and e
- Add or remove spaces
- Number lines in a file
- Print lines that match a specific pattern
- Check to see if a number is prime with a regular expression
- Convert IP address to decimal form
- Replace one string with another

And many more! Save time and sharpen you coding skills as you learn to conquer those pesky tasks in a few precisely placed keystrokes with *Perl One-Liners*.

From reader reviews:

Alvin Pryor:

What do you concerning book? It is not important to you? Or just adding material when you really need something to explain what you problem? How about your free time? Or are you busy individual? If you don't have spare time to do others business, it is gives you the sense of being bored faster. And you have free time? What did you do? Everyone has many questions above. They must answer that question simply because just their can do in which. It said that about publication. Book is familiar in each person. Yes, it is right. Because start from on jardín de infancia until university need this Perl One-Liners: 130 Programs That Get Things Done to read.

Joel Faulkner:

People live in this new morning of lifestyle always aim to and must have the time or they will get great deal of stress from both way of life and work. So , when we ask do people have time, we will say absolutely indeed. People is human not a robot. Then we question again, what kind of activity do you possess when the spare time coming to you of course your answer will certainly unlimited right. Then do you try this one, reading books. It can be your alternative throughout spending your spare time, the particular book you have read is usually Perl One-Liners: 130 Programs That Get Things Done.

Iris Robertson:

Reading a book to get new life style in this year; every people loves to go through a book. When you study a book you can get a great deal of benefit. When you read publications, you can improve your knowledge, simply because book has a lot of information onto it. The information that you will get depend on what kinds of book that you have read. If you wish to get information about your examine, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, this kind of us novel, comics, along with soon. The Perl One-Liners: 130 Programs That Get Things Done offer you a new experience in studying a book.

Edward Shaw:

In this era globalization it is important to someone to obtain information. The information will make a professional understand the condition of the world. The health of the world makes the information quicker to share. You can find a lot of references to get information example: internet, newspapers, book, and soon. You can view that now, a lot of publisher that will print many kinds of book. The particular book that recommended for your requirements is Perl One-Liners: 130 Programs That Get Things Done this guide consist a lot of the information on the condition of this world now. This particular book was represented how can the world has grown up. The language styles that writer make usage of to explain it is easy to understand. The writer made some investigation when he makes this book. That's why this book suitable all of you.
