The sources of knowledge of Paul's life are practically all contained in one volume, the New Testament. The source method of studying history can here be used with especial fitness. Modern scholarship has contributed much to a better understanding of the New Testament. The purpose of this handbook is to serve as a guide in so reading the ancient in the light of the modern that the student will be able to derive a clear and accurate conception of the apostle and his achievements. He is advised first to read the New Testament references upon each stage of Paul's career, then to read the pages of this volume which supplement the references, and finally to study the references again with careful application of the textbook comments. He will do well at the same time to free his mind of rumors and notions concerning Paul and to think of him in his place among the leaders of history as a man of action with an international purpose to which he bent every energy of his powerful personality. It is hoped that the instructor who uses the book will recognize the importance of regular assignments of supplementary reading with each chapter as well as the importance of having at hand a carefully selected reference library, such as is suggested in Appendix II. It is very desirable also that he find place for the discussion of certain subjects treated very briefly or not at all in the text, such subjects as are listed in Appendix
