Hadoop Blueprints

Anurag Shrivastava

Hadoop Blueprints Anurag Shrivastava

Key Features

- Learn to solve real-world business problems using Hadoop and other big data technologies
- Power-packed with seven case studies to get you going with Hadoop for Business Intelligence
- Analyze sensor data using Hadoop and develop a data visualization dashboard

Book Description

If you have a basic understanding of Hadoop and want to put your knowledge to use to build fantastic business solutions, then this book is for you.

You will learn to build six real-life, end-to-end applications using Hadoop in its ecosystem. Each chapter will cover the steps required to build an application end to end. We start off by discussing various industry use cases and the associated business cases. We also discuss common architectural patterns. Next, you'll learn how to import and utilize structured and semi-structured data to build a 360-degree view of the customer. We'll also build a classification model based upon historical data using a machine learning library. We then move on to use an analytics model to predict the likelihood of a certain event.

Through these real-world cases, you'll take your Hadoop learning to the next level. You will be able to try out the solutions explained in the book and use the knowledge gained to extend them further in your own problem space.

What you will learn

- Use Sqoop and Hive to build your customer a 360 degree view
- Use Spark and Hadoop to build a fraud detection system
- See how customer master data and transaction streams can be used to build a fraud detection system
- Familiarize yourself on how machine-learning libraries can be used with Hadoop to solve business problems
- Collect data through GPS sensors to build dashboards using visualization
- Get to grips with building a Hadoop-based Data Lake for large enterprises

About the Author

Anurag Shrivastava is an engineering manager with a background in programming and consulting. Anurag has been associated with Xebia, ING Bank, and IndicInfo in various technology and management leadership positions. Anurag is the founder of Nuospin, which is a specialized product development company focused on Nodejs, MongoDB, Apache Spark, and Hadoop.

From reader reviews:

Anne Larsen:

What do you ponder on book? It is just for students as they are still students or this for all people in the world, what best subject for that? Simply you can be answered for that concern above. Every person has different personality and hobby for every other. Don't to be pushed someone or something that they don't would like do that. You must know how great along with important the book Hadoop Blueprints. All type of book can you see on many sources. You can look for the internet sources or other social media.

Catrina Hall:

Is it anyone who having spare time after that spend it whole day by simply watching television programs or just laying on the bed? Do you need something new? This Hadoop Blueprints can be the reply, oh how comes? A book you know. You are and so out of date, spending your free time by reading in this brand new era is common not a nerd activity. So what these guides have than the others?

Shane Bodine:

That reserve can make you to feel relax. This kind of book Hadoop Blueprints was bright colored and of course has pictures around. As we know that book Hadoop Blueprints has many kinds or genre. Start from kids until teens. For example Naruto or Private eye Conan you can read and think that you are the character on there. Therefore not at all of book are make you bored, any it can make you feel happy, fun and loosen up. Try to choose the best book for yourself and try to like reading that.

Marylou Arroyo:

Reserve is one of source of knowledge. We can add our understanding from it. Not only for students but native or citizen will need book to know the up-date information of year for you to year. As we know those guides have many advantages. Beside most of us add our knowledge, can bring us to around the world. By book Hadoop Blueprints we can get more advantage. Don't you to be creative people? To become creative person must choose to read a book. Just choose the best book that acceptable with your aim. Don't possibly be doubt to change your life at this time book Hadoop Blueprints. You can more inviting than now.
