For as long as man has walked upon this earth, he has been forced to survive under the cruel tyranny of weather. Let's face it: there is no escape. Have no fear: By the time you make your way through this book, you will be able to read, understand, and defend yourself against the elements!

? Is ?Red sky at night, sailor?s delight? a helpful saying or just the ramblings of idiotic drunkards who like to rhyme?

? What are these Santa Ana winds that blow out warmly from the desert, and who is this hussy for which they are named?

? What is this Gulf Stream that flows out from Mexico before crossing the Atlantic toward Africa and Europe, and how can a stream cut through the ocean anyway?
