The View from Alger's Window: A Son's Memoir Tony Hiss

The View from Alger's Window is Tony Hiss's remarkable memoir of the trial and imprisonment of one of the most famous victims of the Cold War witch-hunts: his father. Tony Hiss was seven years old when Whittaker Chambers first accused Alger Hiss of passing secrets to the Russians. For the rest of his childhood, Tony and his family experienced the cruelties and intimidations of the time.

Drawing on hundreds of letters Alger sent from prison, the author counters public perceptions of Hiss and shows the fundamental decency and essential goodness of his father and, along the way, draws a compelling portrait of an innocent man. At the same time he lets us see how adversity drew this father and son together, allowing them to achieve a closeness they might never have been able to otherwise.

Beautifully written, wise, **The View from Alger's Window** sheds new light on a family, a time, an accusation, and a man whose guilt or innocence continues to inspire debate.

From the Trade Paperback edition.
