Meet the MUTANT HUMANOIDs. They may look a little different from us, but inside they're much the same as you and me. Left on a diseased Earth, they live in windowless compounds, safe from the contaminated wilderness outside. Safe, yes, but their lives are restricted. When the mutant humanoids discover that some complete human beings, COMPLETES, have also survived and are living greatly improved lives on satellites, they determine to rectify this imbalance and claim their share of Earth's heritage. Three-headed RA rules the humanoids with ruthless precision, but others are involved in a power struggle to depose him. Who will succeed in being the next CEO of Planet Earth? Sixteen -year-old MERCURY plans to start a new life on Oasis. Will it prove the Utopia he expects it to be? ASCENSION, the first novel in Jeannie van Romper's Oasis Series, explores with humour and compassion the way humans respond to change. The future worlds of Earth and Oasis mirror our contemporary society. The division between the haves and have-nots widens and the lust for power leads to corruption. But there are idealists determined to build a fairer, more egalitarian society.
