"Ruddick's interpretative study of Gertrude Stein breaks new ground in both Stein studies and poststructural theory, remaining accessible while rejecting neither indeterminate polysemy nor the thematic unity of 'idea.' . . . Through valuable interpretations of the major early Stein texts ('Melanctha,' The Making of Americans, G.M.P., and Tender Buttons), Ruddick details the 'serial acts of self-definition' of the modernist self in relation to William James, Freud, and the Bible. . . . Ruddick is authoritative in dealing with Stein's work, feminist theory, and the cultural phenomenon of modernism."?Choice
