Radiology Case Review Series: Breast Imaging Chris Flowers, Markus Holzhauer

Access interactive cases on breast imaging for the best board review possible!

Part of McGraw-Hill's Radiology Case Review Series, this unique resource challenges you to look at a group of images, determine the diagnosis, answer related questions, and gauge your knowledge by reviewing the answer. It all adds up to the best interactive review of breast imaging available--one that's ideal for certification or recertification, or as clinical refresher.

Distinguished by an effective 2-page design, each volume in this series is filled with cases, annotated images, questions & answers, pearls, and relevant literature references that will efficiently prepare you for virtually any exam topic. The book's cases are crosslinked to an online component that includes full-resolution images, interactive image stacks, discussions and extra teaching points that reinforce your grasp of must-know breast imaging topics--from gynecomastia to primary breast lymphoma.

Radiology Case Review Series Features

- 200 cases for each volume, which consist of:
 - Precise, state-of-the-art images accompanied by questions and answers, descriptions of the entities, insightful clinical pearls, and reference lists
 - Intensive coverage of fundamental radiology principles, the latest diagnostic imaging techniques, radiology equipment, new technologies, and more
- Unique 2-page design for each case, which features:
 - Images with 5 questions on the right-hand page
 - Magnifications, annotations, and detailed answers on the verso page--a benefit that you'll find only in this exceptional series!
 - Informative, bulleted comments box that provides important additional context for each case
- Cases organized and coded by difficulty level allowing you to evaluate your proficiency before progressing to the next level
- Radiology-relevant scrolling and stacking function
- A dedicated interactive website enables you to:
 - Scroll the images from each case in the text as well as stack images (display multiple views of an image)
 - Zoom in and out, or scroll up and down, to highlight specific details of a subject
 - Access additional images for each case using the case ID number from the text

From reader reviews:

Carlos Callahan:

Reading a e-book can be one of a lot of action that everyone in the world enjoys. Do you like reading book consequently. There are a lot of reasons why people fantastic. First reading a reserve will give you a lot of new data. When you read a guide you will get new information since book is one of a number of ways to share the information or maybe their idea. Second, examining a book will make a person more imaginative. When you reading through a book especially fictional works book the author will bring you to imagine the story how the figures do it anything. Third, it is possible to share your knowledge to other people. When you read this Radiology Case Review Series: Breast Imaging, you are able to tells your family, friends in addition to soon about yours reserve. Your knowledge can inspire the mediocre, make them reading a guide.

Arthur Bailey:

People live in this new day of lifestyle always try and and must have the time or they will get lots of stress from both lifestyle and work. So , when we ask do people have free time, we will say absolutely without a doubt. People is human not really a huge robot. Then we inquire again, what kind of activity are there when the spare time coming to you actually of course your answer can unlimited right. Then do you try this one, reading guides. It can be your alternative inside spending your spare time, often the book you have read will be Radiology Case Review Series: Breast Imaging.

India Oakley:

As a university student exactly feel bored for you to reading. If their teacher requested them to go to the library or to make summary for some e-book, they are complained. Just minor students that has reading's heart and soul or real their interest. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful photographs on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Radiology Case Review Series: Breast Imaging can make you sense more interested to read.

Virginia Hughes:

What is your hobby? Have you heard in which question when you got college students? We believe that that concern was given by teacher to the students. Many kinds of hobby, All people has different hobby. And you also know that little person including reading or as reading become their hobby. You have to know that reading is very important in addition to book as to be the point. Book is important thing to increase you knowledge, except your own teacher or lecturer. You discover good news or update in relation to something by book. Different categories of books that can you take to be your object. One of them are these claims Radiology Case Review Series: Breast Imaging.
