Mago's Dream Ilchi Lee

People have forgotten how to breathe out. Caught in a materialistic matrix, humanity has become trapped in an unsustainable pattern of living, breathing in until we are ready to implode. The Earth is laboring under the burden. The time to exhale has arrived. You are an extraordinary person because you are living during an extraordinary time in history. Humanity has reached a critical juncture in its collective development, and many critical issues now demanding our immediate attention: global warming, population growth, culture clash, and more. In Mago's Dream, you will learn to connect to the essence of Mago, the nurturing spirit of the Earth. In the process, you will feel that her essence is your essence, and that through her you can connect to your own highest self. In the book, Ilchi Lee contends that the earth itself should become a central tenant of our human identity. By recognizing ourselves as Earth-humans, we can learn to transcend the cultural and national identities that keep us from living as a single, united humanity. And, by placing the Earth herself at the center of our common value system, we can learn to live in balance with the source of life itself.
